## Personal information

Date of Birth: 05/03/1994  
Nationality: Belgian  
Location: 3980 Tessenderlo

## Education

2014: Professional Bachelor in Computer Hardware (completed 3 semesters)  
2017: Professional Bachelor in Applied Computer Science (completed)

## Experience

2yrs: Angular Developer at Centomedia

The company, which specializes in Digital Signage, was looking for a way to improve their currently 'outdated' display software. Together with a relatively small team, we have created a framework which allows the customer to manage their digital content displayed on the screen in a unique and innovative way.

06/02/2017 – 18/01/2019

1yr: Full-stack Developer at Pharma Distri Center (via Axxes IT Consultancy)

To improve customer satisfaction and the distribution of product samples/customer stock, the company has introduced the 'Customer Portal' application. Using Angular, NHibernate, Web API and a lot of other technologies and tools, we have uplifted the customer experience.

21/01/2019 – 31/12/2019

## Languages and frameworks

Angular	C#	T-SQL
